

SUNY NIAGARA

Dietetics Studies, A.S.

Overview

With a degree in Dietetics, you will be able to provide clients with a holistic approach to a healthy lifestyle through the food they consume. This science and math-based curriculum provides the foundation for students to examine the relationship between nutrition and disease, proper food preparation, and apply their knowledge of health and nutrition in a variety of settings. Program outcomes also include improved communication, critical thinking and problem-solving skills.

Designed for transfer into a 4-year institution.

Careers

Careers related to your program of study:

- Dietetic Technician
- Dietitian
- Nutritionist

Some careers may require more specialized education.
