

SUNY NIAGARA Phlebotomist, Cert.

Overview

This program will prepare you for employment in the medical laboratory industry, ready to collect blood and other specimens for diagnostic testing, transfusions, research, and blood donations. The specimens you will gather play an important role in the diagnostics and treatment of patients. Courses in biology, First Aid, CPR, patient communication, coupled with clinical procedures and phlebotomy practicum will prepare you for immediate entry-level employment. Our alumni have gained employment in hospitals, laboratories, donation centers, physicians' offices, clinics, and other health-care facilities.
